CREATING A WONDERFUL HOME...
is like creating a wonderful wardrobe.

It's all about your life and your style. There's a sort of "magic" when everything comes together... when it's comfortable and looks great, too.

Your home is an extension of you – just look at what's displayed! Favorite items you've picked up from your travels...authentic period pieces... and your favorite accessories. Then there's the refinement evident in your personal style. An elegance that is impressive yet blends effortlessly with the look you've created.

Our designers look forward to working with you to make dreams a reality in your new home.

THE FINER POINTS of a Woman-Centric Home

are found in our attention to detail and an appreciation for the art and science of home building. It starts with listening to you. We've found many of our clients have done the research, have a good idea of what they want and are looking for a qualified builder that will work with them. We also enjoy sharing new insights regarding de-stressing, entertaining, storing and flexible living amenities.

Livability at a Glance

■ entertaining ■ de-stressing ■ flexible living ■ storage

STORAGE

Storage is a necessity. Organization is a non-negotiable. A convenient place for everything, right where you want it.

STORAGE CAN BE BEAUTIFUL.

HOW DO YOU ENTERTAIN?

ENTERTAINING

There just may be no better place for entertaining than your new home!

DE-STRESSING

Your home should be your sanctuary...a place where you regroup from your busy life and the demands of others.

RELAXING AND DE-STRESSING ENHANCES YOUR LIFE.

FLEXIBILITY

Flexibility is the hallmark of a well-planned home. Secondary bedrooms... a home-based business ...or a guest suite...what works best for you?
