

## Your Best New Home Value...

combines the practical, as well as the aesthetic. Because a truly beautiful home “lives” well and makes your life easier!

The products featured in your home were chosen for their dependability, performance and ease of use. For example, low-maintenance products reduce upkeep and give you back a little more time for what’s really important.

A great value means designing the buying and building experience around your preferences, rather than what’s easiest for us.

Construction quality is not an area to “cut corners”. That’s why we work with some of the area’s best suppliers and sub-contractors. Their pride in their work is evident in the craftsmanship found in our homes.

We also look forward to serving as your “new home investment counselor”. Within your budget, we want to provide information so you can make wise, informed decisions regarding your home and the amenities in it.

We truly care about helping you get the very best home that meets your needs and complements your lifestyle!

Is Your Haven”

# What is a Woman-Centric home?

The essence of a woman-centric home is found in “how the home lives”. We approach designing the homes differently, concentrating on the four most important aspects women have described to us: de-stressing; entertaining; storing; and flexible living. It’s called “Livability-At-A-Glance”, and we’ve even color-coded our floor plans to identify these areas and amenities in the homes.

## de-stress

Stress seems to come from every direction. Whether it’s balancing multiple roles or just trying to keep everybody happy, our homes are a much-needed respite from stress. Relaxing areas, such as a soaking bathtub, a favorite porch swing, or a serene sitting area to curl up with a good book, are golden. From calming rear foyer entries from the garage to thoughtful amenities like a pull-out kitchen wastebasket cabinet, our homes are designed with de-stressing in mind.

## flexible

Tailor your home to your specific needs with our flexible living choices. Have pets? You’ll appreciate our pet center options. Do you work from home? Be sure to check out our home office solutions. Want to ensure you don’t outgrow your new home? Consider installing drywall and electrical outlets in unfinished areas now, creating spaces which you can easily finish off later as the need arises.

How do you like to entertain? Whether it’s holiday get-togethers, birthday parties or just having a few close friends over, our homes are ideal for easy entertaining. “Light, bright and airy” could well describe your new home’s comfortable, uncluttered appearance. Inviting exteriors and entertaining spaces inside and out...these homes seem to say “Welcome, we’re glad you’re here!”

## entertain

We’ll be honest. We’ve never built a home which had too much storage space! Storage and organization are hallmarks of our woman-centric homes. Enjoy generous entry, linen and bedroom closets, large pantries, drop zones in the rear foyer, even storage in the laundry rooms. And, in addition to providing more storage space, we also offer organization options—from closet solutions to garage wall systems—so there can be order in your home...and in your life!

## storage
