

*Adventure.
Understanding.
And a happy ending.*

It's all part of our woman-centric home building experience.

It starts with getting to know you, and how you want your home to "live", so we can capture your dreams in the perfect home design. The excitement builds throughout construction, as you personalize your home with so many products and amenities. Don't worry—we've streamlined all of the processes to make them easy, fun and stress-free. But the best is yet to come—just imagine what life will be like in your new home!

Maggie

Personalities play an important role in creating the perfect home.

*"your home is
carefree"*

Maggie

You know it when you see it.

A home that caters to your lifestyle, enhancing everything you do. Fun and functional, our homes are designed around de-stressing, entertaining, storing, and flexible living. It's called "Livability-at a Glance", and we've even color-coded our floor plans to identify these areas and amenities in the homes.

In your new home, where are you going to put your things? Whether its camping gear or a travel center right in your closet, we can design the types of storage that will keep your life organized!

In the home design (lower right) notice the kid's play area. Or is it a hobby/craft room...a planning center...a pocket office for working from home...a big food prep area...or a second walk-in closet for the owner's suite? With our flexible designs, *you* decide!

Movie night...a scrapbooking party...or the big game buffet... how do you like to spend time with family and friends? From spur-of-the-moment get-togethers to important dates planned well in advance, we can help you make for memorable entertaining in your new home.

When it has been a particularly stressful day, nothing is better than coming home, hanging out on the porch and having friends over or, maybe, creating something with your own hands. Let us know how you like to relax—in one of your favorite places...*home*.
