

Wherever you look in your home...
you will like what you see!

From cutting-edge home design to innovative products and unique finishing touches, you want a home with great style.

If you're tired of going from model to model home only to realize you've seen it all before...when every home you tour seems so predictable...know that our goal is to build you a home that is uniquely you.

a home that both encompasses
your needs and *reveals* you.

PERSONALITIES

play an important role in creating the perfect home.

WHY DON'T ALL BUILDERS BUILD HOMES WITH STORAGE EXACTLY WHERE IT'S NEEDED?

- Storage accessed from the outdoors for patio furniture, kids toys, etc.
- Storage in powder baths and water closets
- Larger pantries to get clutter out of your kitchen
- Organizational products for closet, kitchen and even garage storage

STORAGE

d DE-STRESSING

IN THE MIDST OF LIFE'S URGENT DEMANDS, YOUR HOME SHOULD BE A PLACE TO DE-COMPRESS. CONSIDER:

DE-STRESSING

- Spa shower system
- Outdoor living areas for re-vitalizing
- Media room (you'll love our soundproofing!)
- Den or library
- Laundry pair in, or directly accessed from, owner's suite bath or closet
- State-of-the art technology

f FLEXIBLE

Change

IS A NATURAL PART OF LIFE. YOUR HOME NEEDS TO BE ABLE TO CHANGE WITH YOU.

THINK ABOUT:

- Murphy (wall) beds
- Disappearing work spaces
- Planning centers/pocket office
- Home office suite with shipping zone
- Guest suite
- Spaces you could finish later

e ENTERTAIN

INVITE PEOPLE TO LOVE THE WAY YOU LIVE!

- Unexpected shapes (notice the kitchen island)
- Outdoor entertaining
- Unique statements (e.g., special fireplaces)
- Interesting surfaces and finishes
- Expressive accessories (be sure to let us know what you want to display so we can plan for it!)

consider what inspires you
Home is where you recharge... and re-invent
home is where you reveal who you really are... it tells your story.

BECAUSE YOUR HOME IS UNIQUELY YOU, WE ASK "HOW DO YOU WANT YOUR HOME TO 'LIVE'?" Consider areas for ENTERTAINING, DE-STRESSING, STORING and FLEXIBLE LIVING. That's how we design – using those four "lenses" – and we've even color-coded our floor plans to identify these areas and amenities in our homes.
